Hi

Why does my OpenOffice not honor my locale settings?

"locale" says:

LANG=de\_CH

LC\_CTYPE="de\_CH"

LC\_NUMERIC="de\_CH"

LC\_TIME="de\_CH"

LC\_COLLATE="de\_CH"

LC\_MONETARY="de\_CH"

LC\_MESSAGES="de\_CH"

LC\_PAPER="de\_CH"

LC\_NAME="de\_CH"

LC\_ADDRESS="de\_CH"

LC\_TELEPHONE="de\_CH"

LC\_MEASUREMENT="de\_CH"

LC\_IDENTIFICATION="de\_CH"

LC\_ALL=

The language is German in OO but that's only because I only have the German package installed, however all the measurements and formats are in inches and so on. That makes OO nearly usable...

Is there a way around that?

cheers,

Raffaele

Annoyed about MS Windows? Don't worry. Try Linux! ([www.linux.org](http://www.linux.org))
