I recently setup a new machine with Woody, and I think I changed something that causes the console login banner to appear twice when logging locally or remotely via SSH.

Basically what I get is this:

```
sanchez@helios:~$ ssh sanchez@isl.ucf.edu  
Linux isl 2.4.21-1 #1 SMP Mon Aug 25 20:33:28 EDT 2003 i686 unknown
```

Most of the programs included with the Debian GNU/Linux system are freely redistributable; the exact distribution terms for each program are described in the individual files in /usr/share/doc/\*/copyright

Debian GNU/Linux comes with ABSOLUTELY NO WARRANTY, to the extent permitted by applicable law.

You have mail.

```
Last login: Fri Aug 29 16:50:49 2003 from helios.engr.ucf.edu  
Linux isl 2.4.21-1 #1 SMP Mon Aug 25 20:33:28 EDT 2003 i686 unknown
```

Most of the programs included with the Debian GNU/Linux system are freely redistributable; the exact distribution terms for each program are described in the individual files in /usr/share/doc/\*/copyright

Debian GNU/Linux comes with ABSOLUTELY NO WARRANTY, to the extent permitted by applicable law.

```
sanchez@isl:~$
```

How do I get rid of it? I have also set up two other machines in the last few weeks and neither of them behaves in this manner. What did I do?

–Roberto
