Hi,

I have been using vim on woody without any trouble <doing control-k ^ e gives the circonflexe accent on the e for example>. I now also have Libranet installed on another machine and even though I copied over my .vimrc and set LANG and LC\_ALL to "C" in both cases I can't get all of the accents to work <interestingly the c cedille and e accent aigu work as they do on woody>.

Any clues as to where I should look, typing locale gives the same result in both cases...

tia
