W: GPG error: <http://download.kde.org> stable Release: Unknown error executing gpgv

Re: gaim problem

Debian-User: Re: gaim problem

W: GPG error: <http://mirrors.kernel.org> stable Release: The following signatures couldn't be verified because the public key is not available: NO_PUBKEY B629A24C38C6029A

W: GPG error: <http://ftp.us.debian.org> stable Release: The following signatures couldn't be verified because the public key is not available: NO_PUBKEY B629A24C38C6029A

W: GPG error: <http://ftp.debian.org> stable Release: The following signatures couldn't be verified because the public key is not available: NO_PUBKEY B629A24C38C6029A

W: GPG error: <http://non-us.debian.org> stable/non-US Release: The following signatures couldn't be verified because the public key is not available: NO_PUBKEY B629A24C38C6029A

W: You may want to run apt-get update to correct these problems

That's after running apt-get update about three dozen times.
