Hello Again.

I hope you are fine and business is starting to pick up for you.

This is just a quick email to advise you that there is a new company in the U.K which you maybe interested to hear about.

There name is "Quest For Catia" and they will soon become one of the leading CAD design training companies in Europe in 2004.

There website is one of the best that I have seen and it explains everything in detail. Simply use the following link to visit their site: www.questforcatia.co.uk

They also have a new link exchange index which can be entered from the home page but due to the site is relatively new, there are no links yet but if you are CAD or pro engineering related and interested in exchanging links, simply follow the instructions on the linking page and contact Quest.

Ok. I hope you have a great "New Years".

Kind Regards.
