To: Debian User List <[debian-user@lists.debian.org](mailto:debian-user@lists.debian.org)>

All,

I'm running Debian GNU/Linux 3.0r1. I've recently had to restart GNOME 2.2, and found the following errors on the console (tty01) prior to rebooting:

I/O error: dev 0b:00, sector 0  
I/O error: dev 0b:00, sector 64  
I/O error: dev 0b:00, sector 0  
I/O error: dev 0b:00, sector 64

Are these disk I/O errors? What further diagnostics can I run, to help troubleshoot the problem?

Thanks.

Michael
