

Debian-User: creating images

creating images

To: debian user <debian-user@lists.debian.org>

Can someone recomend an app, and maybe linkage to docs, for creating an image of system partition? As well, what about restoring the image in case of disaster/emergency?

I just spent the whole weekend rebuilding 2 routers and 1 server:-(Good learning experience, but at my age, I'd prefer to spend it with wifey and baby:-)

Thanks
