To: Debian User List <debian-user@lists.debian.org>

I am trying to set up the minimalist mail server and ran into a problem with logging.

My configuration states:

Directory: /var/spool/minimalist

Administrative password: ok

Logging: /var/log/Minimalist.log

Log info about messages: yes

But I can't get anything to log. There is no file in /var/log/

Any suggestions?
