Others may have some clearer idea of what you're looking for. The best *I* could do is to run the command

```
apt-file search replace
```

which produced a list of 170 packages that might contain what you're looking for. The list is below, but: could you be more precise? Where did you see this command mentioned?

```
abiword-doc  
abiword-help  
amaya  
anjuta-common  
autopsy  
cl-ansi-tests  
conglomerate  
coq  
craft  
db2latex-xsl-doc  
diasce2  
docbook-defguide  
docbook-doc  
docbook-dsssl-doc  
dosemu-freedom  
emacs21-common  
emacs21-el  
emacspack  
endeavour2  
erc  
fltk1.1-doc  
fml  
foomatic-db-engine  
gclcv5-doc  
gedit-common
```
