

Debian-User: Recognizing a new DVD drive.

Recognizing a new DVD drive.

I've installed a new DVD/CDROM drive on my Debian box. (I also have an older read-only CDROM drive.)

Now I need to know how to set up the new DVD drive on my Debian Sarge system. I think this involves editing my fstab and mounting the new drive. I couldn't find a HOWTO on the net explaining this procedure. Can anyone help me with the steps involved?

Thanks,

Scott Huey
