Hello, Paolo. Sure. For your machine, in 2.6, you likely appear to have two
mouses. Read 2.6 input drivers FAQ
(<http://www.ussg.iu.edu/hypermail/linux/kernel/0402.0/0019.html>).

Best regards,

Ender.

What was that, honey? It was bad. It had no fire, no energy, no nothing.

So tomorrow from 5 to 7 will you PLEASE act like you have more than a
two word vocabulary. It must be green.
