To: debian-user@lists.debian.org

Starting at 06:58 this morning (BST, -0100) my ddclient has "gone funny" several times an hour. Here is a typical group of syslog entries:

```
Sep 3 11:25:21 garcia ddclient[2045]: SUCCESS: updating
ducksburg.homelinux.com: good: IP address set to 87.202.40.197
Sep 3 11:25:31 garcia ddclient[2045]: WARNING: skipping update of
ducksburg.homelinux.com from 87.202.40.197 to 82.38.177.88.
Sep 3 11:25:31 garcia ddclient[2045]: WARNING: last updated Sat Sep
3 11:25:20 2005.
Sep 3 11:25:31 garcia ddclient[2045]: WARNING: Wait at least 30
seconds between update attempts.
Sep 3 11:25:52 garcia ddclient[2045]: SUCCESS: updating
ducksburg.homelinux.com: good: IP address set to 82.38.177.88
```

Is anyone else seeing this problem? Any suggestions?

Thanks,  
Adam
