Cedric BRINER wrote:

I'm facing some uncomprehension with aptitude vs apt-get. And I remembered that there was a thread about this on the mailing list archive:
<http://lists.debian.org/debian-user/2005/02/msg00372.html>

but when I click on:

Index(es):

* Date

* Thread <<<---- this one

I don't find this thread !!!

As already pointed out, this seems to be a bug in the mail archiving software.

In the meantime, the URL you want is the following one, since the thread starts on the second page of the February 2005 archive:

<http://lists.debian.org/debian-user/2005/02/thrd2.html#00372>

regards,
