Dear Debian Group

My English is so bad, so i want to install kde-i18n-zhtw language package but, i use "apt-get install kde-i18n-zhtw" command, that say "No found"

i also use the command "apt-get search kde-i18n-zhtw", that say "E:Invaile operation search"

I'm using Debian 4.0-KDE

Pls help

Thanks

Wayne
