Probably I have found the way with

apt-cache search (show) xorg-dev

V 1:7.1.0-16

fp

I don't think so. Try this:

```
mr@main:~$ apt-file search X11/IntrinsicP.h
libxt-dev: usr/include/X11/IntrinsicP.h
mr@main:~$ apt-file search X11/ShellP.h
libxt-dev: usr/include/X11/ShellP.h
```

So, you need package libxt-dev.
