Greetings;

I am trying to install dansguardian and it won't go. I have tried renaming and removing file & directories to no avail. I always get these errors from aptitude install.

```
Setting up dansguardian (2.8.0.6-antivirus-6.4.4.1-2) ...
grep: /etc/dansguardian/dansguardian.conf: No such file or directory
Starting DansGuardian: dansguardianError opening /etc/dansguardian/dansguardian.conf
failed!
invoke-rc.d: initscript dansguardian, action "start" failed.
dpkg: error processing dansguardian (--configure):
subprocess post-installation script returned error exit status 1
Errors were encountered while processing:
dansguardian
E: Sub-process /usr/bin/dpkg returned an error code (1)
A package failed to install. Trying to recover:
Setting up dansguardian (2.8.0.6-antivirus-6.4.4.1-2) ...
grep: /etc/dansguardian/dansguardian.conf: No such file or directory
Starting DansGuardian: dansguardianError opening /etc/dansguardian/dansguardian.conf
failed!
invoke-rc.d: initscript dansguardian, action "start" failed.
dpkg: error processing dansguardian (--configure):
subprocess post-installation script returned error exit status 1
Errors were encountered while processing:
dansguardian
```

Any body have a workaround or alternate install procedure?

TIA
Dennis
