

What are these folders in home?

Source: <http://linux.derkeiler.com/Mailing-Lists/Debian/2008-03/msg02523.html>

I am cleaning our \$HOME and I was wondering what these directories and files are:

~/fullcircle/ (I know it is the mozilla feedback agent. I use Tbird and Firefox. Can I erase this anyway?)

~/java/ (java is a system-wide app, no? Can I erase this? I use OpenOffice, which I know has a java dependency)

~/mcp/

~/metacity/

~/wapi/

~/crash_report_checksum

~/crash_report_frames

~/crash_report_preview

~/..DCOPserver_feisty-laptop__0

~/..DCOPserver_feisty-laptop_:0

~/..DCOPserver_feisty-laptop__1

~/..DCOPserver_feisty-laptop_:1

~/dmrc

~/esf_auth

~/fishsrv.pl

~/glivrc

~/ICEauthority

What are these folders in home?

~/.lpoptions

~/.msoprc

~/.odbc.ini

~/.rnd

~/.Xauthority

~/.xsession-errors (this one is 98 MB)

Thanks in advance.

Dotan Cohen

A: Because it messes up the order in which people normally read text.

Q: Why is top-posting such a bad thing?
