To: For users of Fedora Core releases <fedora-list@redhat.com>

Having a problem with yum getting headers.info and timing out.

<ftp://ftp.mozilla.org/pub/mozilla.org/mozilla/yum/SeaMonkey/releases/1.7/redhat/2/headers/header.info>

yum-2.0.7-2.fc.fr

[Errno 4] IOError: [Errno ftp error] (110, 'Connection timed out')

I don't think its the old ftp problem as several other url's in yum.conf are ftp's,I can read the file in my browser so whats the problem.

david
