To: For users of Fedora Core releases <fedora-list@redhat.com>

Hi all,

When I transfert files from my girlfriend Windows XP computer to my Linux FC2 computer, I cannot read the files names properly from my Linux. Specials chacarters like é à è are remplaced with a white space.

Can you help me or do I have to change my girlfriend? ;-)

Thank

Jean

PS: My variable \$LANG is equal to fr_CA.UTF-8.
