> *Upstream made a new release of vte so I made these test packages for FC3 and FC4. It is too late for FC4test3 but will try to push it into FC4. Changes between FC4's previous patched vte and this version are very small, but whatever else changed seems to have fixed the most common rendering bugs that annoyed me. It even seems both fast and smooth when displaying lots of text now.*

> *Anyhow if you are annoyed by gnome-terminal's glacial slowness please test the above packages. If this proves to be stable this may go into FC3 updates soon.*

Thank you Warren Togami! I have been frustrated with Gnome Terminal's visual glitches for years. Now thanks to your VTE rpm they are gone!
