Hey folks,

Can anyone tell me what the following output from chkrootkit might mean:

```
Checking `chkutmp'!... The tty of the following user process(es) were not found
in /var/run/utmp !
! RUID PID TTY CMD
! root 4674 tty1 /sbin/mingetty tty1
! root 4677 tty2 /sbin/mingetty tty2
! root 4680 tty3 /sbin/mingetty tty3
! root 4683 tty4 /sbin/mingetty tty4
! root 4686 tty5 /sbin/mingetty tty5
```

Naturally I'm concerned.

Thanks,

Stuart.

```
