FC4 Can't use Nautilus burn:

Source: <http://linux.derkeiler.com/Mailing-Lists/Fedora/2005-10/4269.html>

To: For users of Fedora Core releases <fedora-list@redhat.com>

I want to use the burn:/// feature in Nautilus. This used to work for me, but lately all I can do is write the image to a file, not to my /dev/dvdwriter = /dev/cdwriter = /dev/cdrom = /dev/hdc. It's as if Nautilus doesn't see the device. cdwriter works fine on its own.

Any suggestions how to burn to my device?

TIA, Martin
