-

Hello,

On the chain RH-Firewall-1-INPUT, what's the mean of the rules number 1 and 2, please?

```
"# iptables -L --line-number
Chain INPUT (policy ACCEPT)
num target prot opt source destination
1 RH-Firewall-1-INPUT all -- anywhere anywhere
```

```
Chain FORWARD (policy ACCEPT)
num target prot opt source destination
1 RH-Firewall-1-INPUT all -- anywhere anywhere
```

```
Chain OUTPUT (policy ACCEPT)
num target prot opt source destination
```

```
Chain RH-Firewall-1-INPUT (2 references)
num target prot opt source destination
1 ACCEPT all -- anywhere anywhere
2 ACCEPT icmp -- anywhere anywhere icmp any
"
```

TIA,
Vinicius.
