Hi guys,

I am trying to get a kickstart install of FC5 working from an FC5 vsftp server.

[snipped config file]

Failed to retrieve / ./repodata/repomd.xml
Failed to establish a data connection with the FTP server.

Hi Chris,

I may be way off, but after you copied the contents of your FC5 DVD to the ftp server, did you run "createrepo" on the directory?

Can't say that I did... should that fix it?!

Thanks,

-Chris
