Hi! I'm a newbie in the whole Linux world, but ...

Where can I find libiec61883 1.1.0 or newer for fc5 x86\_64? ... I'm installing the FreeBoB project ([http://freebob.sourceforge.net/index.php/Main\\_Page](http://freebob.sourceforge.net/index.php/Main_Page)) and it requires libiec61883 1.1.0 or newer, but I have version 1.0.0 and FreeBoB installation says:

"checking for LIBIEC61883...

configure: error: Package requirements (libiec61883 >= 1.1.0) were not met:

Requested 'libiec61883 >= 1.1.0' but version of libiec61883 is 1.0.0

Consider adjusting the PKG\_CONFIG\_PATH environment variable if you installed software in a non-standard prefix.

Alternatively, you may set the environment variables LIBIEC61883\_CFLAGS and LIBIEC61883\_LIBS to avoid the need to call pkg-config. See the pkg-config man page for more details."

Everything else is OK, but this one ...

please help me ...

Thanks in advance!

Mika Äijäläinen
