- 

Hi,

having running FC5 on an ASUS board A8R-MVP (no AGP, but PCI express). My video card ATI Rage Theatre is not completely recognized (lspci):

01:00.0 VGA compatible controller: ATI Technologies Inc Unknown device 71c0  
01:00.1 Display controller: ATI Technologies Inc Unknown device 71e0,

and after calling system-config-display the video card is only configured for VESA mode.

Is there any depository for fitting drivers?

Any advice appreciated.

Regards

Joachim Backes
