i can't understand why this icon allways says there is 34 updates available whereas when i try to update there is no update available. I tried to refresh it without any success.
Someone have an idea ?

Thanks

Eric

Hi Eric. I presume this is on FC4, which was the last to have the update notification icon. The only thing I can think of, is that Redhat is telling you that Fedora-legacy updates are available, but you don't have the Fedora-legacy URL in `/etc/yum.repos.d`, so are not able to retrieve them.

Nigel.

No i'm talking about the new fc6 notification icon.
Eric
