The reason is because the Grub info says you can, and I want something to use if Grub is not able to work off the hard drive  
like it doesn't run anymore :-)  
I can then log into another account on another hard drive.

OK. When I have had problems losing grub on the hard drive (when MS Windows overwrote it), I just reinstalled grub and was able to boot back into Linux. Instructions can be found here:  
<http://www.stevesearle.com/tech/faq.html#grub0010>

Steve

I think the first CD I made will allow me to reinstall grub anywhere. I will try it going to my second hard drive which has none now.

Karl –

You may or may not have seen this – I was skimming my way through articles I have not seen yet using Liferea. I saw this and
