Not sure what achievement was accomplished. I am just learning about Grub.

Next time a bit more experimentation is on order before writing e-mails about it. Also subject lines like "<something> sucks" are more accurately written as "I don't understand <something>". Though I'm much more tolerant of reading "Windows sucks" comments.

Using FC 4, 5, 6 & 7, plus CentOS 5. Today, it's FC7.

Don't send private replies to my address, the mailbox is ignored. I read messages from the public lists.

... I've finally figured out the drive corruption/fragmentation business: The computer plays Tetris with your data, trying to fit it into the unallocated space. As soon as it manages to fill a few contiguous blocks, BOOM! Woe betide you if it manages to fill a whole sector in one go... (Tim)
