have people bothered to inform CNN of this issue? it would probably only hold water with them if MANY users did this.

Several replies to their "new CNN site blog" mentioned not working with linux. Mine was one of them till they deleted it (probably something to do with my suggestion that they do a news story on how time warner was a microsoft puppet :-).

Ha!

I just choked coffee all over my monitor.
Thanks, dude..

I don't see the link to the blog on their main page anymore,
but it is probably still around if you search for it.
