Hey,

i couldn't wait till fedora was releasing a updated pidgin so i made it.
it actually just needed about 3 specfile changes:

- version
- sub version (1_f7)
- a few lines for new files

That's it!!

Here are the rpm's:

i386 libpurple NLShare mirror:

http://www.nlshare.nl/files/download/1435/libpurple_2.1.0_1.fc7.i386.rpm/

i386 pidgin NLShare mirror:

http://www.nlshare.nl/files/download/1436/pidgin_2.1.0_1.fc7.i386.rpm/

i386 finch NLShare mirror:

http://www.nlshare.nl/files/download/1438/finch_2.1.0_1.fc7.i386.rpm/

.src.rpm NLShare mirror:

http://www.nlshare.nl/files/download/1437/pidgin_2.1.0_1.fc7.src.rpm/

want more mirrors? upload it and share it.

If you don't like this or want a official fedora rpm than you will
just have to wait till they release it.

Have fun using Pidgin 2.1.0
