Now that you mention it, the list has been quieter lately, with fewer foolish noise threads, and, thinking back, it's clearly because /you/ were not posting. Now be quiet. This is not your personal blog, and we are not your friends.

Your remarks are beyond repulsive, your behavior unconscionable, and you and the rest of the wing nuts piling on Karl do NOT speak for me. Until you guys begin to exhibit a little tolerance and practice a little common courtesy, you can put me on your list of "not your friends" too! Let it also be stated for the public record that not one of you keyboard cowards has the least standing as moderator of this list.
