I think you're misunderstanding. If you use dd to copy, the filesystem will be copied too. You /must/ not put a filesystem on the larger partition before dding over. If necessary, zero it out first.

Matt Flaschen

I thought that was what I said :-)

No, you said "do NOT put a filesystem in the destination partition". You are putting a filesystem, but you're doing it through dd.

Matt FLaschen

The glass is exactly half full...or empty :-)
