H Doncho,

How much time does it take it to give this message? Generally speaking you

Thanks, very much! it gives the error immediately.

should call `/etc/cron.daily/mlocate.cron`, which will tell updatedb what not to index (ex: `/dev`, `/proc`, `/sys`, `/selinux`, `/tmp`...). Maybe one of these pseudo filesystems is causing the problem, try `mlocate.cron`?

i had never heard of `mlocate.cron`. so i tried `/etc/cron.daily/mlocate.cron` and this seems to have done the trick.

thanks,  
trotter
