Since there is no longer a full-set of iso's for CDs, can I install the full set using Gnome or Kde Live CD and still be able to install F8?

Thanks!

The best kept secret around, Fedora Unity. These guys (& gals ?) get no respect. Go here, <http://spins.fedoraunity.org/spins> , and get your full set of CDs or DVDs for Fedora 8. Also re-spins of Fedora 7 are available if you're more conservative and don't want the pointy part of tthe bleeding edge.
