Here is how I think answers to questions should look like.

... snip ...

Question: How can I get the driver for my nVidia video card?

Answer: This is a two step procedure. ...

or, as an alternative, rather than continually polluting this list with badly-written advice that almost never works, you can try something wild and crazy and start a blog, like this guy just announced, and post the info there:

<http://totallybeginner.blogspot.com/2008/01/installing-nvidia-and-ati-cards-in.html>

where the aforementioned beginner even recognizes the value of other peoples' work and simply links to a detailed write-up of how to do it properly, including contingency plans for when something doesn't quite work and ... and ... oh, screw it, why do i bother, since every conversation with karl ends up as:

http://farm1.static.flickr.com/46/143296774_97691615cb.jpg

is it too early for a beer?

rday

--

As usual rday you are a stupid stuck on yourself worthless nothing. Drink all the beer you want.

Karl
