Hi all,

I can't record from a mic (internal or external) on my laptop running Fedora Core 8 64bit, and alsa from standard repos as shown above:

```
alsa-lib.x86_64 1.0.15-1.fc8 installed
alsa-lib.i386 1.0.15-1.fc8 installed
alsa-lib-devel.x86_64 1.0.15-1.fc8 installed
alsa-tools.i386 1.0.12-4.fc7 installed
alsa-tools.x86_64 1.0.12-4.fc7 installed
alsa-utils.x86_64 1.0.15-1.fc8 installed
alsa-utils.i386 1.0.15-1.fc8 installed
alsamixerui.x86_64 0.9.0-0.3.rc1.fc8.2 installed
bluez-utils-alsa.x86_64 3.20-6.fc8 installed
```

As there seems there aren't solutions I would like to know if:

Someone use the same laptop and have mic working well?

There is a way to obtain the new alsa 1.0.16 working from repos (development) without a lot of changes, or is better to recompile from scratch ?

Tnx
Ambrogio
