Hello Paul,

Does your server as client ?

Edward.

Paul Smith wrote:

Dear All,

At booting, ntpdate fails to start, and also the following command fails:

```
# /sbin/service ntpdate start
ntpdate: Synchronizing with time server: [FAILED]
#
```

The log messages are:

```
Sep 7 12:50:50 localhost ntpdate[2908]: the NTP socket is in
use, exiting
```

Any ideas?

Sorry, Edward, I cannot understand what you mean. Could you please elaborate a bit further upon it?

Re: Ntpdate fails to start

Paul

Hello,

- 1, Your is a NTP Server.
- 2, Your is a NTP Client.

So, which one are you ?

Thanks !

Edward.
