Dear All

I would like to use the kprinter interface with open office 2.3.  
kprinter is nicer.

Someone posted a question on the open office mailing list and the reply was to ask the KDE people. That person hasn't yet so I thought I would as I also want to know.

How do I achieve this.

Hope to hear

Stephanos  
Mandriva 2007-0, KDE 3.5.4, 2.6.17-5mdv, x86\_64
