Hi,

clean 2.4.22-ac1, load of usb-uhci.o locks my machine hard :(  
it was working OK with 2.4.22-rc2-ac2! machine is on KT133 chipset.  
I cant use plain 2.4.22 because of trouble of compiling it with XFS  
support (unofficial patch has no .config entries).  
any suggestions? regards, P
