To: linux-kernel@vger.kernel.org

Depmod reports the following unresolved symbols:

```
depmod: *** Unresolved symbols in
/lib/modules/2.4.23-pre2-4GB-SMP/kernel/drivers/ide/ide-core.o
depmod: ide_wait_hwif_ready
depmod: ide_probe_for_drive
depmod: ide_probe_reset
depmod: ide_tune_drives
```

Thus ide can't be modular
