To: marcelo.tosatti@cyclades.com

Hi,

Here are some USB bugfixes and changes against 2.4.24-pre1. There is one new driver (w9968cf) and a nice update of the usb printer driver. Everything else is small updates that are present in 2.6 (or in the patch queue for 2.6 acceptance.)

Please pull from: <bk://linuxusb.bkbits.net/usb-devel-2.4>

The individual patches will be sent in follow up messages to this email to you and the linux-usb-devel mailing list.

thanks,

greg k-h
