Hello,

Where is the sparse source? (AKA TSCT – The Silly C Tokenizer) There was the BK repository at <bk://kernel.bkbits.net/torvalds/sparse>, now unavailable and the ml owner linux-sparse@vger.kernel.org seems dead. There is other BK rep at <bk://linux-dj.bkbits.net/sparse> but it is an old version. And I can't find it on google... Any pointers? TIA.

PS: This info should also be somewhere in the kernel docs...

Regards,

Rui Saraiva
