Hi!

Is this product work with kernel 2.6.x?

<http://www.acard.com/eng/product/adapter/pc/ide/aec-6885s.html>

It mentioned that it's compatible with Linux RedHat 7.3 & 8.0 & 9.0, but I seached through the whole mail list with keyword "ATP-867" and "AEC6885" with no luck. Anyone tried this?

Kyle
