In 2.6.11-rc a completely unused variable was added, resulting in the following compile warning:

<--- snip --->

...

CC sound/usb/usx2y/usx2yhwdpepcm.o

In file included from sound/usb/usx2y/usx2yhwdpepcm.c:53:

sound/usb/usx2y/usbux2yaudio.c: In function `usX2Y_urbs_allocate':

sound/usb/usx2y/usbux2yaudio.c:418: warning: unused variable `ep'

...

<--- snip --->

This patch removes this unused variable.
