Then in this regard we have failed miserably. Any suggestion you may have to make things better will be listened to.

> *When your random 10 second email post recently gives a more direct pointer to the information I need or find interesting, then you know your web site has serious problems. None of those papers are on a top level link that can be easily accessed. The papers you folks do are the best documentation outlining your work yet they are the most difficult to find. That's a serious mistake.*

Point taken.

Hopefully the information I'm providing in these postings will motivate people to take a second look and, possibly, help us get things more straight-forward for others to explore.

Karim
