Source: <http://linux.derkeiler.com/Mailing-Lists/Kernel/2005-08/7177.html>

To: linux-ide@vger.kernel.org

This patch does the following:

- changes license of all code from OSL+GPL to plain ole GPL
 - except for NVIDIA, who hasn't yet responded about sata_nv
 - copyright holders were already contacted privately
- adds info in each driver about where hardware/protocol docs may be obtained
- where I have made major contributions, updated copyright dates
