

## [PATCH] Kconfig: saa7134-dvb must select tda1004x

*Source:* <http://linux.derkeiler.com/Mailing-Lists/Kernel/2005-08/7692.html>

---

**From:** Michael Krufky (*mkrufky\_at\_m1k.net*)

**Date:** 08/30/05

Date: Tue, 30 Aug 2005 15:47:14 -0400

To: stable@kernel.org

I wish I had seen this before 2.6.13 was released... I guess this only goes to show that there haven't been any testers using saa7134-hybrid dvb/v4l boards that depend on the tda1004x module, during the 2.6.13-rc series :-(

Please apply this to 2.6.14, and also to 2.6.13.1 -stable. Without this patch, users will have to EXPLICITLY select tda1004x in Kconfig. This SHOULD be done automatically when saa7134-dvb is selected. This patch corrects this problem.

saa7134-dvb must select tda1004x

Signed-off-by: Michael Krufky <mkrufky@m1k.net>
