

[2.6 patch] wrong firmware location in IPW2100 Kconfig entry

Source: <http://linux.derkeiler.com/Mailing-Lists/Kernel/2006-01/msg11456.html>

- *From:* Adrian Bunk <bunk@xxxxxxxx>
 - *Date:* Tue, 31 Jan 2006 17:11:24 +0100
-

From: Jesper Juhl <jesper.juhl@xxxxxxxx>

Firmware should go into /lib/firmware, not /etc/firmware.

Found by Alejandro Bonilla.

In order to use this driver, you will need a firmware image for it.

You can obtain the firmware from

<<http://ipw2100.sf.net/>>. Once you have the firmware image, you

- will need to place it in /etc/firmware.

+ will need to place it in /lib/firmware.

You will also very likely need the Wireless Tools in order to configure your card:
