-

From: Koen Martens <kmartens@xxxxxxxxxxxxxx>

Changes are:

- Added s3c2412-specific files to arch/arm/mach-s3c2410
- Added s3c2412 detection to arch/arm/mach-s3c2410/cpu.c
- Added CONFIG_CPU_S3C2412
- Added s3c2412 specific registers and register addresses to various regs-*.h files in include/asm-arm/arch-s3c2410

All changes are preliminary, final documentation is not yet available from samsung. We did test on actual hardware, but outside the linux kernel (due to limited number of actual chips we have available and lack of proper PCB with serial lines exported).

Signed-off-by: Koen Martens <kmartens@xxxxxxxxxxxxxx>

Have fun,

Koen Martens
